AM VERSION

So Far

2022

THE BEGINNING OF A DREAM

February 2022 marked the start of AM Version a one-man dream fueled by passion, creativity, and determination. With no team, no office, and no clients, just a laptop, ideas, and the belief that powerful stories could transform brands. Every small project was a milestone. Every client interaction was a lesson. The goal was simple to make creativity count.

2023

BUILDING THE FOUNDATION

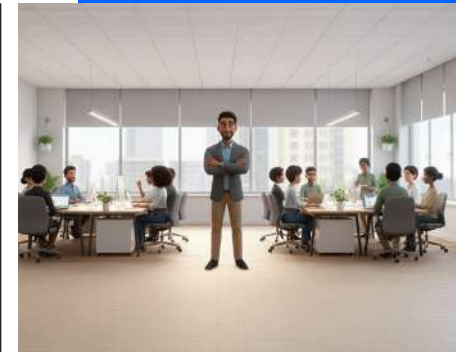

By early 2023, AM Version began to take shape as a real agency. We brought in 3 talented team members, each adding a new layer of energy and expertise. With hard work and consistency, we reached 20 active clients, all through trust and recommendations. This year was about learning to manage people, deliver results, and set the groundwork for sustainable growth. We didn't just build campaigns – we built relationships.

2024

GROWTH & STABILITY

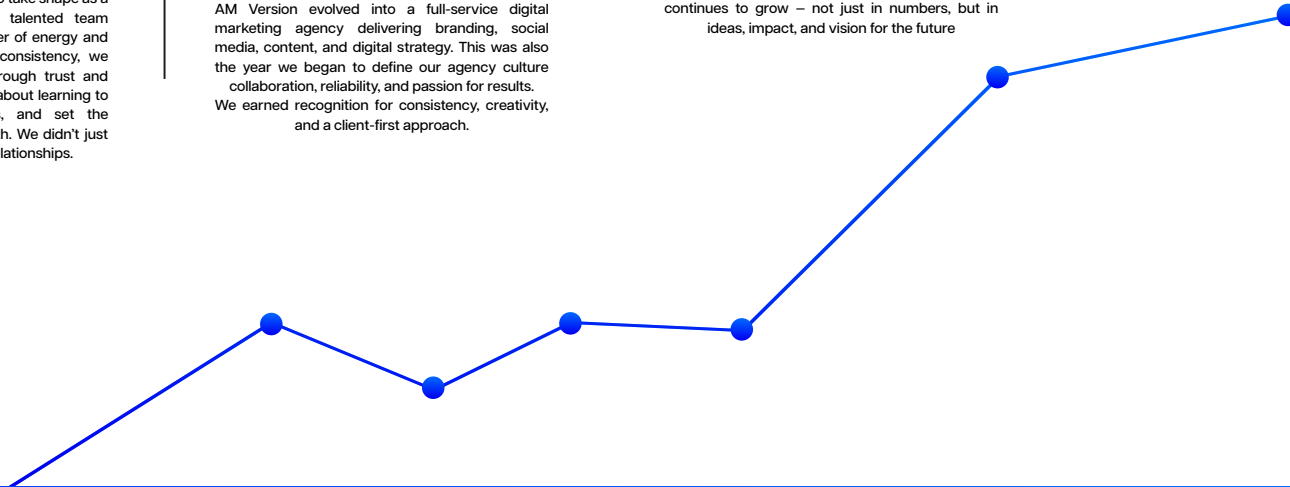

2024 became the year of transformation. Our team expanded to 5 creative professionals, allowing us to take on more ambitious projects and manage a larger client base. With 60 clients served, AM Version evolved into a full-service digital marketing agency delivering branding, social media, content, and digital strategy. This was also the year we began to define our agency culture collaboration, reliability, and passion for results. We earned recognition for consistency, creativity, and a client-first approach.

2026

THE RISE OF AM VERSION

In 2025, AM Version stands as a thriving agency with 15 skilled professionals and 200+ active clients across various industries. We've built long-term partnerships, expanded our creative services, and strengthened our digital expertise. From a solo startup to a trusted name in digital marketing, our journey reflects persistence, teamwork, and an unshakable belief in what we do. Today, AM Version continues to grow – not just in numbers, but in ideas, impact, and vision for the future
